PROFESSIONAL SUMMARY

Software Engineer Trainee with hands-on experience in Java, Spring Boot, MySQL, Node.js, React Native, and Flutter. Built backend systems, REST APIs, and responsive web/mobile interfaces with a focus on clean architecture and practical delivery.

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, SQL, TypeScript
Frameworks: Spring Boot, Node.js, React Native, Flutter
Databases / Tools: MySQL, Firebase, Redis
Core Concepts: DSA, OOP, DBMS, OS, Computer Networks, MVC, REST APIs

WORK EXPERIENCE

Software Engineer Trainee | Cognizant | *Nov 2025 - Present*

- Completed training in Java, Spring Boot, and MySQL.
- Built backend applications using MVC architecture and REST APIs.
- Integrated database operations and strengthened backend development fundamentals.

Web Developer (Freelance) | SJ MedSpace (USA) | *Nov 2024 - Apr 2025*

- Developed a medical research platform with structured content access.
- Integrated secure payment functionality for premium resources.
- Improved user experience through responsive design and intuitive navigation.

Frontend Developer (Freelance) | Aura Care Rehabilitation | *May 2024 - Jun 2024*

- Built a responsive website to improve the organization's digital presence.
- Improved engagement by 20% through UI refinements and SEO-focused updates.

PROJECTS

Smash Live - Sports Venue Booking & Event Platform | *Nov 2024 - Present*

- Engineered a location-based platform for booking sports arenas.
- Developed the mobile frontend using React Native and backend services using Node.js and Payload CMS.
- Implemented booking workflows, venue discovery, and league creation; used MySQL and Redis for performance.

Employee Health Insurance Management System

- Developed a backend system using Java, MySQL, Spring Boot with MVC architecture.
- Implemented REST APIs, CRUD operations, and MySQL integration.

SJ MedSpace - Medical Research Platform

- Built a platform for hosting and accessing research content.
- Tech Stack: HTML, CSS, JavaScript, React.js, Node.js, Firebase Payment Integration, Responsive Web Design
- Integrated secure payment gateway for premium access.

Upcoming – Application

- Built using Flutter, Dart, and Android Studio.
- Integrated Clerk authentication, Expo Router and TypeScript with React Hooks.
- Developed full CRUD operations and file storage capabilities.
- Created a smooth, swipe-based UI with real-time updates, enhancing user experience across various news categories

EDUCATION

- B.Tech in Computer Science (AIML) - SR University | CGPA: 7.89 | 2025
- Class XII - Alphores Junior College | 91% | 2021
- Class X - Sidhartha High School | 91% | 2019

LEADERSHIP & CERTIFICATIONS

Leadership: Cultural Club Member; Student Coordinator.
Certifications: Microsoft Security, Compliance & Identity; Azure Security; Python for Data Science; DSA; Java Programming.
